

Dear Students, Families, Faculty and Staff,

Welcome to the new school year!

Welcome back everyone!!! It seems like its been forever since we have all been together in person but it is a brand new school year and we are excited to announce that Project LYFT is back! As always, Project LYFT is committed to helping our students meet both their personal and professional goals. Through a robust program built around student needs and interest, we encourage students to grow their skills and help develop new ones. Whether you are interested in exploring the worlds of art, music, science, cooking, engineering, media or technology, Project LYFT has all this and more. Join us daily for different projects, games, discussion and educational support. Learn life skills such as college and career readiness, financial literacy and how to build a brand. Project LYFT has all the resources necessary to help students achieve their goals. Project LYFT is devoted to bringing the highest quality programming and services to our students and the communities we serve. We at Project LYFT are exuberant about another amazing year at Bartram High School and are looking forward to seeing you all again soon!!

SINCERELY,

Project LYFT

**Applications available now in the Project LYFT
tab on the Bartram school website.
